Trusted by more than 15,000 global brands, we help you navigate new markets with confidence whilst ensuring your products meet every requirement.

---

# WHY YOU NEED COMPLIANCE

Compliance isn't just about ticking boxes

—it's about protecting your business, your customers and your brand.

Without proper compliance, companies face real risks

**Restricted access to markets**

**Potential fines**

**Safety hazards**

**Harm to your brand's reputation**

These setbacks can lead to supply chain disruptions and lost revenue.

- Perhaps you have a great product ready for market, but you're unsure if it meets the necessary regulations.
- You might worry about unintentionally violating laws or struggle to understand specific requirements for a new region.
- Maybe you're creating a product and don't know how complex compliance will be.

These are challenges businesses face every day.

## HQTS understands these challenges.

That's why we offer tailored solutions to help businesses navigate the complexities of compliance. Whether you're looking to identify necessary licenses, understand testing and labeling requirements, or ensure your packaging complies with regional standards, our experts are here to guide you.

# HQTS COMPLIANCE

## HOW IT WORKS?

We simplify compliance so you can meet global standards and get your products into new markets faster and easier. Here's how it works:

### 1 COMPLIANCE REPORT

You'll get a detailed compliance report tailored to your specific product, covering safety and environmental regulations, testing standards, and requirements for labels, packaging, and instructions in your target market.

### 2 COLLECTING AND CHECKING TECHNICAL DOCUMENTS

Once all the necessary documents are collected from your suppliers, we'll check the documents to make sure they meet market rules and let you know what to do next.

### 3 PREPARING TECHNICAL DOCUMENTS

If you need fresh documentation we can create the key documents needed for your product, including descriptions, design drawings, test reports, certificates, and instructions, all tailored to meet regulations.

### 4 STORING TECHNICAL DOCUMENTS

Your documents can be stored safely with us for up to 10 years, ensuring they're ready whenever market authorities request them.

### 5 STORING TECHNICAL DOCUMENTS

We'll track regulation updates and help you make any needed adjustments to stay compliant and competitive.

### 6 HANDLING MARKET RECALLS

We help spot risks early, reduce recall costs, and improve product management to keep your business running smoothly.

# HQTS HUB

Your go-to platform for easy compliance management and beating the regulations.

HQTS Hub is your all-in-one platform designed to streamline every step of the compliance process – from understanding the regulations for your products to tracking regulatory updates. Stay on top of your compliance with all your information and expert support in one easy-to-use hub.
